

D SRI CAHARN REDDY

INDUSTRIAL DESIGNER

Phone: +91 9000398267

Email: scr30.design@gmail.com

Portfolio: [Sri Charan Reddy](#)

LinkedIn: [Sri Charan Reddy Duggayampudi](#)

EDUCATION

B.Des (Hons.), 2026

Specialization : Industrial Design

Woxsen University

CGPA: 3.01/4 (Till 6th Sem)

TECHNICAL SKILLS

- Design software(3d modelling, visualization and UI)
- Rendering and Visualization
- Prototyping and Fabrication
- Design methods and knowledge
- Manufacturing and technical awarness
- Research and Documentation

SOFT SKILLS

- Negotiation
- Adaptability
- User centred approach
- Collaboration

CERTIFICATIONS

- [Principles of UI/UX Design](#)
- [Promt engineering](#)
- [User Experience Design](#)

PROFESSIONAL SUMMARY

Hii;
This is resume of a passionate and creative Industrial Design fresher with hands-on experience in sketching, 3D modeling, prototyping, and material exploration. I love turning ideas into functional, aesthetic designs that balance creativity and usability. Curious by nature, I’m always exploring new tech, staying active through boxing and the gym, and finding inspiration while traveling. Excited to keep learning, growing, and bringing fresh ideas to the world of design!

INTERNSHIPS

User Experience Engineering analyst Intern| Accenture, Bangalore

May 2025 - July 2025

- Designed a modular Data Visualization system with scalable components, Figma tokens, and accessibility compliance.
- Collaborated with agile teams to prototype and deliver presentation-ready assets for real-world clients.
- Strengthened expertise in design systems, data visualization, and brand customization.

Business strategy Design Intern | WhyLab, Hyderabad

May 2024 - July 2024

- Gained hands-on understanding of Design for Manufacturing (DFM) principles and product manufacturability factors.
- Observed and analyzed business strategies and decision-making approaches within real-world contexts.
- Learned to bridge design, manufacturing feasibility, and business strategy for holistic product development.

WORK EXPERIENCE

• Vice-President, Product Design Club

June 2024- Mar 2025

- Led an Auto Expo featuring a rally race car team, live talk sessions, and a bike stunt show celebrating design and engineering.
- Started the “Sketch Café” – a creative space for cross-disciplinary sketching and ideation.
- Encouraged collaboration between designers and engineers to turn ideas into real products.

SOFTWARES

- Fusion 360
- Keyshot
- Figma
- Procreate
- Unity
- Photoshop
- Illystrator
- Vizcom

INTERESTS

- Gym and Sports
- Material Exploration
- Tech Exploration
- Travelling

LANGUAGES

- Telugu
- English
- Hindi

KEY PROJECTS

UNIVERSAL DESIGN /FOREQUATER AMPUTATION

- Worked on body powered prosthetic
- Developed a different menchanism that allows different grip on a body powered prosthetic

MICRO MOBILITY

- Developed a micromobility scooter for campus.
- Focused on manufacturability.
- Focused on campus sustainability.

VISION 2080 (SPECULATIVE DESIGN)

- Envisioned floating cities using data-driven forecasting and creative speculation.
- Designed sustainable infrastructure concepts for future living.

AR/VR INTERACTIVE APPLICATION

- Created an AR app in Unity using pre-made 3D models.
- Integrated interactive, mobile-ready AR experiences for design visualization.

DRIVER DROWSINESS DETECTION APP

- Built an AI-based app for real-time driver monitoring.
 - Designed unique, user-focused features based on real pain points.
 - Added smart, AI-powered wake-up alerts for driver safety.
-
